

## CARM QUESTIONNAIRE

Please indicate by placing an X in the appropriate box, which of the Board's conclusions reflect your point of view. If you disagree with all three of the Board's conclusions, please enter your thoughts in the area provided.

1. I agree that events and technologies have overtaken traditional organizations such as CARM and conclude that CARM is no longer relevant to Canadian modellers.

2. CARM should continue to operate as it is currently structured.

I am prepared to volunteer by starting a local Chapter, or by promoting CARM at local Train Shows and meets. Please print name on line below.

3. CARM should focus on the goal of creating a network of Canadian Modellers and reduce costs dramatically by becoming an Internet based organization.

4. My view on CARM's future direction is:
